

MBA (Master of Business Administration)

Programme Overview

Master of Business Administration (Human Resource) is a two-year professional postgraduate course that focuses on teaching the students about the fundamentals of modern management. Over the two years, the students will be able to learn and understand the aspects of business management and develop the required skills to implement their knowledge practically.

Programme Outcome

- **Application of Knowledge** –Students will be able to successfully apply their knowledge of management science to solve problems in the corporate setting.
- **Build Reasoning and Analytical Skills** –Through the course, the students will be able to build their reasoning and analytical skills to succeed in their management practice.
- **Communication Skills** –In the management field, communication is very important. The students will learn how to improve their written and oral communication skills.

MCA (Master of Computer Applications)

Programme Overview

The MCA Program is a full time 108 credits programme offered by Bharati Vidyapeeth (Deemed to be University), Pune and is conducted in regular and distance mode at its Management Institutes in Pune, Karad, Kolhapur, Sangli, and Solapur. This programme is also conducted in online mode at CDOE under BV(DU). All the five institutes have excellent faculties, laboratories, library, and other facilities to provide proper learning environment. The University is reaccredited by NAAC with an 'A+' grade (3rd cycle). The expectations and requirements of the software industry, immediately and in the near future, are visualized while designing the MCA programme. This effort is reflected in the Vision and Mission statements of the MCA programme. Of course, the statements also embody the spirit of the vision of Late Dr. Patangraoji Kadam, the Founder of Bharati Vidyapeeth and Chancellor, Bharati Vidyapeeth Deemed to be University which is to usher in “Social Transformation through Dynamic Education.”

Programme Outcomes

PO1: Computational Knowledge: Apply knowledge of computing fundamentals, mathematics and given domain to design appropriate models for a given problem and/or requirements.

PO2: Problem Analysis: Apply fundamental knowledge of software engineering and various systems domain in order to analyze, identify, formulate and provide the solution to given problem.

PO3: Design/Development of Solutions: Design and evaluate solutions, systems, modules and processes for specified set of needs with appropriate consideration of societal values and industry expectations.

PO4: Conduct research in Computing problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern Tool Usage: Use of modern tools for delivering milestones like problem analysis, design, development, testing and deployment.

PO6: Professional Ethics: Learn and inculcate professional ethics, cyber regulations, professional responsibilities and norms of professional computing world.

PO7: Lifelong Learning: Acknowledge the need for continuous professional development and practice it through self-motivated, independent learning.

PO8: Management Domain: Involving in projects development as individual or group to solve problems in various domains and environments using computational and management skills.

PO9: Communication Efficacy: Demonstrate efficacy in verbal and non-verbal means of communication like reports, design documentation and presentations to elaborate about complex computing.

PO10: Innovation and Entrepreneurship: Provide conducive environment for innovation and entrepreneurship leading to solutions for betterment of society.

BBA (Bachelor of Business Administration)

Programme Overview

The Bachelor of Business Administration (Honors) Program is four year degree Program offered by Bharati Vidyapeeth (Deemed to be University), Pune and conducted at its Constituent Units in Pune, NewDelhi, Navi Mumbai, Karad, Kolhapur, Sangli, and Solapur. All the Constituent units have excellent faculty, Laboratories, Library, and other facilities to provide proper learning environment. The University is accredited by NAAC with an A + grade. The Bachelor of Business Administration (BBA) total 160 credits is designed to provide a strong practical understanding of the principles, theories and tools necessary to succeed in businesses. The BBA Program focuses on imparting to Students/Learners the ability to demonstrate leadership, understand human relationships, and problem-solving abilities essential for success in any business endeavor. While designing the BBA Program, the above facts are considered and the requirements for higher studies and immediate employment are visualized. This effort is reflected in the Vision and Mission statements of the BBA Program of course, the statements also embody the spirit of the vision of Hon'ble Dr. Patangraoji Kadam, Founder-Chancellor Bharati Vidyapeeth (Deemed to be University), Pune which is to usher in — "Social Transformation Through Dynamic Education"

Programme Outcomes

On the successful completion of this program the students will be able to

- i) Demonstrate an understanding of management concepts, theories, models and key business terms.
- ii) Communicate effectively with various stakeholders of business
- iii) Apply Information Technology applications for managing the business effectively
- iv) Provide optimum solutions to problems in the field of Business Management
- v) Make sound business decisions.
- vi) Identify entrepreneurial opportunities and leverage the knowledge in starting and managing a business enterprise.
- vii) Collaborate with others in the organizational context, manage resources and lead them in the pursuit of organizational goals
- viii) Investigate the multidimensional business problems using research based knowledge, methods and in turn make data driven decisions
- ix) Understand the contemporary issues and changes in the macro environment that may have an impact on the business
- x) Identify the need for and engage in lifelong learning in the field of business management
- xi) Develop effective and diverse teams
- xii) Create sustainable and ethical business policies

BCA (Bachelor of Computer Applications)

Programme Overview

The Bachelor of Computer Application (Honors) Programme is a full time four year programme offered by Bharati Vidyapeeth (Deemed to be University), Pune and conducted in Regular mode at its management institutes located in New Delhi, Pune, Navi Mumbai, Kolhapur, Sangli, Karad and Solapur. All the seven institutes have excellent faculty members, computer laboratories, Libraries, and other facilities to provide proper learning environment to the students. The University is accredited by NAAC with 'A+' grade. The expectations and requirements of the Software Industry, immediately and in the near future, are considered while designing the BCA programme. While designing the BCA Programme, the above facts are considered and the requirements for higher studies and immediate employment are visualized. This effort is reflected in the Vision and Mission statements of the BCA programme, the statements also embody the spirit of the vision of Dr. Patangraoji Kadam, the Founder of Bharati Vidyapeeth — “Social Transformation Through Dynamic Education”

Programme Outcomes

On completion of BCA (Honors) Four Year Degree Programme the expected programme outcomes that a student should be able to demonstrate are the following:

PO1. Computational Knowledge: Understand and apply mathematical foundation, computing and domain knowledge for the conceptualization of computing models from defined problems.

PO2. Problem Analysis: Ability to identify, critically analyze and formulate complex computing problems using fundamentals of computer science and application domains.

PO3. Design / Development of Solutions: Ability to transform complex business scenarios and contemporary issues into problems, investigate, understand and propose integrated solutions using emerging technologies.

PO4. Conduct Investigations of Complex Computing Problems: Ability to devise and conduct experiments, interpret data and provide well informed conclusions.

PO5. Modern Tool Usage: Ability to select modern computing tools, skills and techniques necessary for innovative software solutions

PO6. Professional Ethics: Ability to apply and commit professional ethics and cyber regulations in a global economic environment.

PO7. Life-long Learning: Recognize the need for and develop the ability to engage in continuous learning as a Computing professional.

PO8. Project Management: Ability to understand management and computing principles with computing knowledge to manage projects in multidisciplinary environments.

PO9. Communication Efficacy: Communicate effectively with the computing community as well as society by being able to comprehend effective documentations and presentations.

PO10. Societal & Environmental Concern: Ability to recognize economical, environmental, social, health, legal, ethical issues involved in the use of computer technology and other consequential responsibilities relevant to professional practice.

PO11. Individual & Team Work: Ability to work as a member or leader in diverse teams in multidisciplinary environment.

PO12. Innovation and Entrepreneurship: Identify opportunities, entrepreneurship vision and use of innovative ideas to create value and wealth for the betterment of the individual and society.
